PREFACE

This publication gives the status of photographic interpretation projects as of 22 December 1961. The purposes of the publication are 1) to facilitate interagency coordination of photographic interpretation projects, 2) to avoid duplication, and 3) to indicate the status of departmental and national projects. It consists of two parts. The first part lists the current projects by category. The second part lists them by departmental requirement numbers. An explanation of the reporting table appears on the following page.

Explanation of Table

(1) Project	(2) Requirement	(3) Country	(4) Project Description	(5) Org	(6) Status	(7) Report
P427-61	PC121-1	UR	SOUTHERN USSR AIRFIELDS	PN	25A	NPIC/IM-6-61

(1) Project, 8 columns:
Letters indicate type of project: A-Army, N-Navy, F-Air Force, C-CIA, P-NPIC, J-Joint, JN-National. Project letters are followed by project number and year.

(2) Requirement, 7 columns:
Letters indicate the requesting office.

(3) Country, 2 columns:
The two-letter country code used by the Bombing Encyclopedia is used in this column, e.g., UR is USSR, CH is China, BL is Sov-Bloc.

(4) Project Description, 34 columns:
This column gives a brief description of the project. A "DG" in the final columns indicates that reports resulting from the project will be downgraded.

(7) Report Identification and Number, 12 columns:
When a publication has been issued on a project the publication series and identification number are given in this space. For example, the designation MCI 10-61 appearing in these spaces means that Mission Coverage Index No. 10 of 1961 has been issued. If the project has been completed without a formal report, this space will be marked IM or IOM, followed by the applicable numbers. If the project has been cancelled, the space will have the letters Canc.
